### COME

You and your friends are invited to see our show garden of more than 3000 tulips blooming in May, and the same beds blooming with MUMS in fall. (No obligation). However it is an opportune time to make selections for your fall and spring needs as all blooms are labeled. All tulips are imported from Hillegom, Holland, the ideal tulip growing center. We will have varieties such as early single, early double, single triumphs all blooming before the Darwins which we have plus the Cottage Breeder Farrots, Rembrandts and others with many kinds in each variety.

### SPECIAL RAINBOW COLLECTIONS

25 of the best and most popular varieties each bulb production a different color from white to black and containing some of all varieties listed above. Order in multiples of 25, 50, 75, 100, etc. All but the 25 collections are labeled as to name color and height, but we assure you it will contain the same variety as the labeled collections.

1947 prices have not come through from Holland yet, but let us know your needs and we will quote you prices before May 1. Our prices will be no higher than elsewhere for the same size and quality of tulips, daffodils, hyacinth, crocus or scillas. Give us a try. We aim to please. We can get you any special bulbs grown in Holland if you will let us know your wants early.

### PREPARED HYACINTHS

Especially treated for indoor growing. Nothing could be nicer for Christmas gifts and door prizes. Try some this fall, you won't be sorry.

### GLADIOLUS

Why not try a few gladiolus this year? Choice mixed varieties including such popular kinds as picardy (large apricot pink), Blue Beauty (one of the best medium blues), Snow Princess (large white), Beacon (large salmon scarlet, very popular), King Lear (beautiful ruffled redish purple), and many others.

Trial Dozen large size bulbs	-- 65¢	Bag of 25	-- \$1.25	100	-- \$5.00
Trial Dozen medium blooming size	-- 50¢	Bag of 25	-- .90	100	-- 4.00

SPECIAL -- Extras with all orders of 75 bulbs or more.

### NOVELTY POPPIES

From seeds for summer blooms. These poppies will bloom in early July from fall or early spring sown seeds and produce flowers in various colors as large as peonies. Package seeds 25¢.

### BORDER PLANTS

Add a beautiful low border around your vegetable and flower beds in white or purple. Blooms from May to November. 15¢ each or 2 packages for 25¢. Candy tuft, choice mixed colors, 12 inches tall, 15¢ each or 2 packages for 25¢. Directions will be included with all orders of plants or bulbs.

ALL BULBS AND PLANTS FROM US WILL GROW UNDER ORDINARY CONDITIONS. WE HAVE, HOWEVER, NO CONTROL OVER UNFAVORABLE WEATHER OR SOIL CONDITIONS, IMPROPER PLANTING, NEGLECT, MOLES, OR MICE. THEREFORE, WE CANNOT ASSUME RESPONSIBILITY AFTER THEY REACH YOU. WE DO NOT MAKE REPLACEMENTS.

Mail orders, add 25¢ for mailing cost.

# Never Such 'Mums Before!

Copyright, 1946, Meredith Publishing Co.

By *Fleeta Brownell Woodroffe*

**In full flower weeks—even months—  
ahead of the older kinds, here are the new  
chrysanthemums that successfully defy  
early frosts. They can pack your borders  
with color and fill your vases with grace-  
ful sprays thru a long, lazy fall**

## ← *Summer's gorgeous final act*

Key to chrysanthemums shown in color on opposite page. Photographed by Suter, Hedrich-Blessing at Wychwood, Lake Geneva, Wisconsin

1. Courageous—early dark-red, outstanding new variety
2. Olive Longland—apricot-salmon, 3-inch blooms
3. William Longland—red-orange medley, a sturdy grower
4. Charles Nye—a great buttercup-yellow with firm petals
5. Drifted Snow—large, early, white tinged lemon at centers
6. Zantha—Canary-yellow, ball-shape blooms, long season
7. Primula—yellow daisy-type, graceful and free-flowering
8. Autumnsong—early, unusual shade of rose near carmine
9. Heatherbloom—very double blooms match pink heather in color
10. Tussore—orchid-pink of daisy-type. Nice for cutting

**I**F YOU'RE one who likes "the feel of a good smell," you like chrysanthemums. You associate their clean, sharp odor with bright fall days when the sun feels good across your shoulders. It's tied up with football, maybe. Or planting tulip bulbs. Or getting back home from a picnic with the good smell of wood smoke still clinging to your jacket and hair.

If you're one who revels in color, you're sure to like chrysanthemums. But you've moaned that so often the clear yellows, reds, whites, and bright bronze of their friendly flowers were blackened when at their prettiest by cold weather. Thousands of us—maybe millions—have moaned about that. So plant breeders in a half-dozen areas went to work. The new chrysanthemum strains they've produced for growing in open gardens show an extended range of colors. Real ruby-reds, cardinal-reds, and salmon-pinks have been added to the yellows, whites, and rose-reds we already knew. There are new shapes to both flowers and petals.

But far more important—they've stretched the chrysanthemum season at both ends. July sees some good chrysanthemums now. And August has a fair show, with September and October having regularly the lavish displays seen formerly only in November in "good" chrysanthemum years. This is possible because many of the new varieties have been selected for their high resistance to frost damage to both open flowers and well-developed buds. There's a new day here for chrysanthemum lovers.

**Choose Now.** If possible, make out your list of "must haves" while looking at a good display of the newer kinds. And don't postpone all your enjoyment until next year. Remember, that if moved with their roots in an earth ball, heavily budded chrysanthemum plants can be shifted without much shock. Reset them at once and water—copiously. You'll get a slightly later display, but a lovely one.

Even if you can't have the thrill of setting your new plants in place all in bloom, give your order. Put down on your planting map just where each new one is to go. Then, next May when the early bulbs have faded, set your new plants out in sunny spots; and after they're established, feed them well with liquid manure or a balanced commercial plant food.

Among other splendid new chrysanthemum varieties of garden types not shown here are:

**Reds:** Red Velvet, Ruby Pompon, Burgundy, Robert Brydon, and Flashlight;

**Purples:** Chippewa, Dahlia Mum, Violet;

**Lavenders:** Lavender Lady, Lavender Lassie, Joan Helen;

**Apricot-salmon:** Mrs. Pierre S. duPont III, Coral Sea, Peachblow, Song of India, Southwind, Summer Sunset;

**Bronzy-orange:** Fred F. Rockwell, Maroon 'n' Gold, Autumn Greetings, Burma, Early Harvest, My Lady, Redgold;

**Bright yellow:** Eugene A. Wander, Butterball, King Midas, Sunape, Mme. Chiang Kai-shek;

**Light yellow:** Summer Gold, Harbor Lights, Bambi, Pale Moon;

**White in effect:** Avalanche, Calcite, Candlelight, Igloo, Little Eskimo, Martin's White, Purity, September Cloud, Silver Moon, Snowball, Eggshell;

**Pink in effect:** Betty, Pink Spoon, Pygmy Pink, September Dawn, Tiffany Rose, Carnation Rose, Pink Lustre.

### THE GRAND CHAMPION 'MUMS

#### The Chicago Strain

Over 300,000 hardy Chrysanthemum seedlings have been grown in order to give you these 28 outstanding new 'Mums. They are the result of 12 years of intensive selection by Dr. Kraus, who we believe is America's foremost Chrysanthemum and Hemerocallis breeder. They have all been tested for winter hardiness, are free and early bloomers, have disease-resistant foliage, and all are of the highest quality.
